Hastings: Stage II

PreK-3 Building Committee work:

- Tabled additional work at Hastings based on preliminary cost discussions
 - Why? Because this \$ is on the town fully and new SPACE is the tier one NEED
 - Geothermal: trying to 'hold' and include repair with fast track MSBA repair process. Moving inside building to install the HVAC triggered other scope issues that become mandated.
- MSBA Repair Track:
 - Allows for tight scope fast track repair with reimbursement
 - Geothermal fully inclusive of HVAC
 - Roof
 - Windows

Armstrong Modulares Replacement

Project:

PreK-3 Building Committee

- HMFH Architects
- Vertex OPM
- NOT MSBA connected: Full Town Project Cost

Target: Winter 2018
Open 4 new modulars
Work underway; Mid-year '18

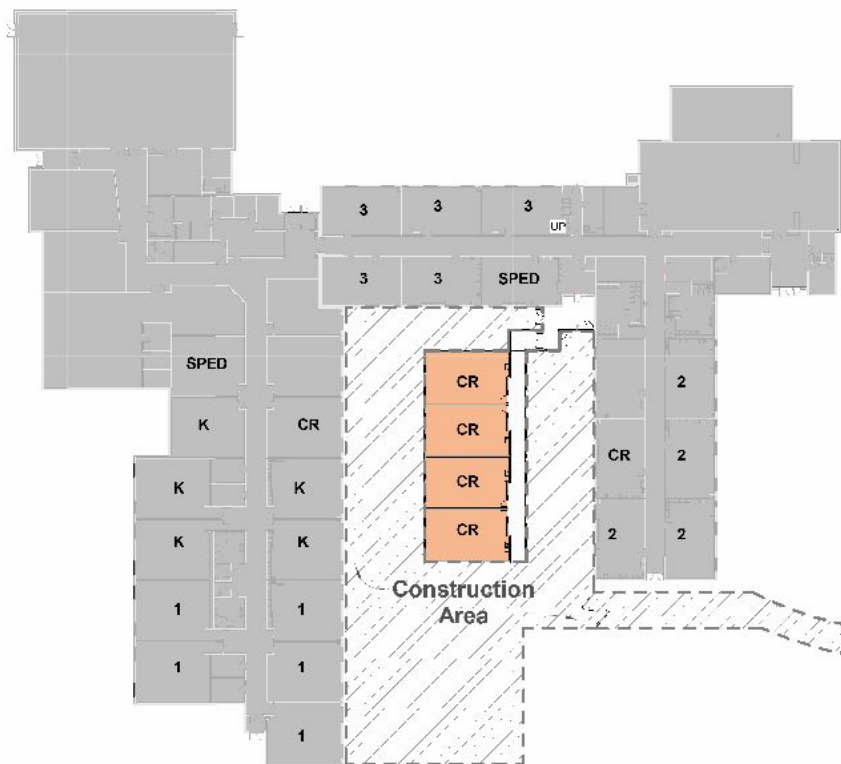

Fall Town Meeting: (NO articles)

- Presentation update only
- All funding complete: Previous town meeting vote for project.
 - \$1.5 million

Project Scope:

- Demolition of old modulars
- Prep of site space
- Construction and installation of 4 new modular classrooms
- Upgraded improved quality modular
